

That Night

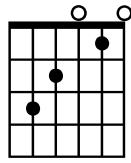

G

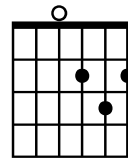

Em

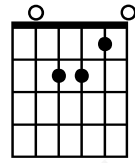

C

D

Am

G

One night in late July

Em

I saw you cross the room

C

Then you asked me for a dance

D

And I could hardly move

G

I'd never been so scared before

Em

Your touch was overwhelming

Am

Then you led me to the floor

D

And I swore I was dreaming

G

That night there was magic

Em

That night I was spellbound

C

By your side, oh the first time

D

I cried, I cried

G

Yes, you changed my life

That night

Em

That night

Am

By your side, oh the first time

D

I cried, I cried

G

This night changed my life

G

We sat and talked all night

Em

The starry sky above us

C

You were nervous, I was shy

D

The butterflies of first love

G

Then I knocked on heaven's door

Em

When you leaned in to kiss me

Am

I'd never been left wanting more

D

Oh I was hardly breathing

G

That night there was magic

Em

That night I was spellbound

C

By your side, oh the first time

D

I cried, I cried

G

Yes, you changed my life

That night

Em

That night

Am

By your side, oh the first time

D

I cried, I cried

G

This night changed my life

Em

I want to have that night again

D

I wanna know what might have been

G

First love just never ends

C

D

Oh why do I still miss him

G
Now life has distanced us
Em
That summer night has long gone
C
But I still feel your lips
D
When I hear our old love song
G
I've changed a lot since then
Em
But still I sit and wonder
Am
I'd like to know what might have been
D
If summer love had lingered.

G
That night there was magic
Em
That night I was spellbound
C
By your side, oh the first time
D
I cried, I cried
G
Yes, you changed my life

That night
Em
That night
Am
By your side, oh the first time
D
I cried, I cried
G
This night changed my life

G
That night there was magic
Em
That night I was spellbound
C
By your side, oh the first time
D
I cried, I cried
G
Yes, you changed my life

That night
Em
That night
Am
By your side, oh the first time
D
I cried, I cried
G
This night changed my life
